Danish Vesa Bintang Parikesit

Frontend Developer & UI/UX Designer

Open to internships, freelance & full-time roles

PROFILE

Informatics student at Universitas Teknologi Digital Indonesia and frontend developer focused on UI/UX. I build responsive, accessible interfaces with React and Tailwind CSS, design in Figma, and ship interactive work people can try right in the browser, from bilingual fan sites to playable games. Recently completed the MSIB Batch 4 Python Machine Learning internship at Vinix7 with a very good rating.

EXPERIENCE

Python Machine Learning Intern

Feb – Jun 2026

PT Vinix Seven Aurum (Vinix7) · MSIB Kampus Merdeka Batch 4

- Completed the independent internship in the Python Machine Learning division with a "very good" rating.

SELECTED PROJECTS

Personal portfolio

my-portofolio-bay-nine.vercel.app

Portfolio with a 3D spiral navigation, an ID/EN switch, recorded demo videos for every project and a contact form that delivers straight to email.

React · Vite · Tailwind CSS · Framer Motion

Fujimoto Archive

dans-vsa.github.io/fujimoto-archive

Bilingual fan archive of Tatsuki Fujimoto's work with six companion sites, including a 171-character Chainsaw Man encyclopedia with spoiler guards.

HTML · CSS · JavaScript · 7 sites

Legenda Lembah Angin

dans-vsa.github.io/legenda-lembah-angin

Browser RPG with an Active Time Battle system, elemental weaknesses, a boss fight and saves; pixel art and chiptune music are generated in code.

JavaScript · Canvas · Godot 4

PortoGameLab

dans-vsa.github.io/PortoGameLab

A portfolio explored as a game: walk a research lab, scan exhibits and unlock achievements, with a minimap and a bilingual UI.

JavaScript · Canvas

Kopi Tycoon

dans-vsa.github.io/kopi-tycoon

Idle game about growing a coffee shop, with six generators, prestige, offline earnings and automatic saves.

Godot 4 · GDScript

SpendWise API

github.com/Dans-Vsa/spendwise-api

Personal finance REST API with JWT auth, monthly budgets, reports and CSV import/export, tested in CI.

FastAPI · SQLAlchemy · pytest · Docker
